

Stewart Cullen

Position – Co Founder and Joint Company Director / Lead Coach

I have a passion for coaching and promoting a positive culture within physical education. I have extensive experience working within sports and fitness in many educational settings such as Doncaster Knights Rugby Club, Get Active and Flying High (Doncaster School sports' partnerships), where I enjoyed many memorable achievements with one of my proudest being able to take school teams to National Finals and help establish mini junior squads at local rugby clubs. The ethos of positive experience for children and having fun in physical education is at the heart of Fit4Rugby which is reflected in the progress children make with our coaches. Since founding the company we have achieved many successes and we are proud to work with children in our own Rugby sessions and in schools, across a range of sports, with excellent feedback to our team on our performance.
