

Samuel Walton

Position – Lead Coach

From a very young age I have always enjoyed and excelled in all sports that I have participated in. This led me to have made my decision of being a Physical Education (PE) teacher/sports coach from very early on in my school life. I have always been determined in improving my own but also other people's physical activity levels and confidence when participating in sports. After finishing secondary school, I studied at Club Doncaster Foundation where I completed my BTEC extended diploma in Sports coaching, fitness and health. Graduating with a Triple Distinction I had met the required grades to accomplish my dream to attend Leeds Beckett University to complete my BA Hons Degree in Physical Education. Over the three years, I witnessed a massive improvement in my teaching ability after gaining a lot of experience working in primary schools and Special Educational Needs schools across Leeds and Bradford as well as learning all key teaching styles and important sport knowledge to benefit me for when I graduated and became a PE teacher. As soon as I graduated from university, I was fortunate enough to immediately start teaching PE working in primary schools alongside Stewart Cullen across Doncaster and the Isle of Axholme teaching a wide range of sports during curriculum time and after school clubs. My sports coaching ability was noticed and very quickly I became a lead coach in schools and helping Paul and Stewart with the Saturday morning rugby club. My development is continuing to grow, and I now work full time across 6 primary schools in Doncaster and lead coach the FIT4RUGBY Saturday morning Doncaster session. From secondary school from year 7 – year 11 I always involved myself in the school rugby team participating in tournaments both regional and national level. I am passionate about all sports, but rugby has always been a sport I have enjoyed playing and teaching. My passion is for me to have a positive impact on the children's life and physical activity level as well as making sure the children are happy, safe and healthy. Rugby is a sport that allows me to do this to a high standard to fulfil everybody's needs.

Qualifications

BA Hons Physical Education Degree

Sports coaching, health and fitness BTEC diploma

First Aid Sport qualification

Child Protection and safeguard qualified

Enhanced DBS checked
